## Breakfast in the Classroom is a Proven Winner

Kathy Glindmeier, MBA, RD, is one of four recipients of the Pinnacle Award.

The Association of School Business Officials (ASBO) International® presents the Pinnacle Award to individuals who have created outstanding practices that enhance the school business management profession.

Ms. Glindmeier is the director of food service for the Paradise Valley Unified School District and she received this award for the creation of the Breakfast in the Classroom program at five schools within the district. This program provides free breakfast to all students, who are served in the classrooms. A nutritious breakfast is waiting for the students when they arrive at school each day. Ms. Glindmeier received her award at the ASBO International annual conference in Cincinnati, Ohio in October.
